Schedule may not foot due to rounding

Net Interest Income dropped significantly during fiscal 2021, ending the year at \$37.7 million. Both the mortgage-backed securities and traditional mortgage portfolios contracted. The decline was driven by very high prepayment levels resulting from historically low interest rates. The decline in revenue was largely offset by reduced debt interest and issuance expenses. *Governmental Accounting Standard Board Statement No. 31* requires that the Authority periodically adjust the investments to reflect current market value. The cumulative adjustment for fiscal year 2021 was a write-down of \$12.8 million which when compared to the write-up of \$46.0 million in the prior fiscal year explains much of the change in net income. While the Authority doesn't intend to actually realize these gains, the adjustment can lead to significant swings in the recorded value of the portfolio.

Direct loan program expense increased by 12.0% or \$1.8 million during 2021. A significant increase in the loan loss provision was the primary contributing factor to the increase in expenses in this area during the year.

Pass-through subsidy revenue and expense represent subsidy proceeds and other financial assistance received by the Authority and transferred to or spent on behalf of secondary projects. Revenues and expenses of the pass-through subsidy programs are equal resulting in a net effect, on the Authority's financial statements, of zero.
